

CONVOCATION CEREMONY ON MAY 26

Greetings And Good Wishes
From The Principal

My first word must be one of warm congratulation to each of you on the successful completion of the work of your degrees and diplomas. Convocation is the ceremony of your celebration, and I am sure that you will enjoy both the feeling of personal accomplishment and the pleasures of your friends.

On such an occasion, you are not likely to seek advice and I shall offer none, but I hope that during some quiet hour in Convocation Week you will reflect a little on the development of your own character and personality during the years that have passed since you entered McGill. Most of you, in such a retrospective glance, will recognize the extent to which maturity and self-confidence have grown just as markedly as knowledge of your subject. In a few days, or weeks, you will be tackling new jobs and starting on another chapter of your lives, but I should like to express the hope that during that chapter, and indeed during all the years ahead, your experience and knowledge may interact to deepen your character and foster your steady growth.

*"How dull it were to pause, to make an end;
To rust unburnished, not to shine in use;
As though to breathe were life!"*
Good luck to each one of you, and happiness attend your work!

F. CYRIL JAMES

International Flavour Shown
By Honorary Degrees

By BRYNA FEINGOLD

Five noted public figures from Canada, England, and the United States will receive honorary degrees to be awarded by Chancellor B. C. Gardner at the Convocation ceremonies.

Lieutenant-General Sir Archibald Nye, High Commissioner for the U.K. in Canada, will receive the degree of Doctor of Laws, honoris causa. He will be presented for his degree by Dean H. N. Fieldhouse. Nye, born in Dublin, enlisted in the ranks during the first World War; he received his commission in 1916 and became Lieutenant-General in 1941. He held the position of vice-chief of the Imperial General Staff, 1941-45, and was governor of Madras in 1945; he was named High Commissioner in 1951.

He is a Grand Commander of the Star of India, Grand Commander of St. Michael and St. George, Grand Commander of the Order of the Indian Empire, Knight Commander of the Bath, Knight of the British Empire; he also holds the Military Cross.

Charles E. Fraser, presented by Dean R. E. Jamieson, will receive an Honorary D. Sc. Fraser graduated from Civil Engineering in 1939; he is chairman of the Board of Directors of the Fraser-Brace Companies.

Fraser is recognized as one of the world's greatest civil engineers. At age 29 he directed the building of the subway tunnel in New York; he has constructed over 20 hydroelectric plants in the country, and participated in much war construction, such as at Chalk River. In 1910, with James H. Brace, the Fraser-Brace Engineering Co. Ltd. was founded.

Dr. Norman A.M. MacKenzie, presented by Dean W. H. Brittain, vice-principal of Macdonald College, will receive an L.L.D. Dr.

MacKenzie is a graduate of Picton Academy, was educated at Dalhousie, Harvard, and Cambridge; he received his legal training in London and was called to the Nova Scotia bar in 1926; he became Associate Professor of Law at Toronto in 1927, President of the University of New Brunswick, 1940-44, when he was appointed to his present position of president of the University of British Columbia.

Dr. Jacob Viner, Montreal-

born and educated at McGill, will receive an L.L.D. Dr. Viner is presently a Professor of economics at Princeton University; he is well known in higher education circles in the United States. He will be presented by Prof. Donald Marsh, chair man of the Social Sciences group at McGill.

Dr. John Bartlet Brebner, Canadian-born Professor of history at Columbia University presented by Dean D. L. Thomson, will receive an L.L.D.

Ball Features Music
By Eddie Alexander

The final event of the round of convocation activities will be the Convocation Ball, to be held in the Sir Arthur Currie Memorial Gymnasium on Wednesday, May 26, from 10 pm to 3 a.m. Tickets are on sale at the Union and in the Arts and Engineering Buildings, and are priced at \$3.00 per single ticket.

Music will be provided throughout the evening by the orchestra of Eddie Alexander, with Peter Barrie's orchestra filling in.

The theme of this year's ball is "Paris in the Springtime". The decorations will be centered around the Eiffel Tower and other well-known Paris landmarks. For this occasion a different layout of tables has been arranged; they will be in diagonal rows at a 45

degree angle to the walls, which is hoped will improve the appearance of the gymnasium.

The ball committee, headed by Wilson Southam, B.A. 2, is planning many new surprises for those attending the ball. All girls will receive on arriving a surprise in the form of a favour. These, it is hoped, will be permanent mementoes of an evening which will be, for many, their last McGill function. The ceiling will be decorated with an intricate arrangement of wires and balloons — and other surprises are likely to materialize from this direction later in the evening.

A midnight supper will be served, and afterwards festive hats and noise-making instruments will be dispensed by Parisian street vendors. Mixers and ice will be available at fully decorated refreshment stands.

A good attendance is expected at this, the last of the year's activities and the end of the university career of many students.

Freshman Registration

All girls interested in acting on information service at Freshman Registration should contact Elaine Sanft at HU, 8-7846.

Britain's High Commissioner
To Address Graduates

By RUTH DICKSTEIN

To all '54 graduating students of McGill University, convocation will be the culmination of four or more years of grinding study. Walking in their caps and gowns down from the Arts Building to the lower campus in the academic procession many will review the "best years of their lives" spent at McGill; parents, wives and friends will watch with pride the acceptance of a degree which traditionally places these students in the ranks of the learned.

High points of convocation proceedings will be the granting of honorary degrees to five well-known public figures and the annual convocation address. This year the address is to be given by Lieut.-Gen. Sir Archibald Nye, United Kingdom High Commissioner of Canada. He is also to be presented with the degree of Doctor of Laws, honoris causa.

Convocation is scheduled for the lower campus at 9:45 a.m. on Wednesday, May 26. If the weather is fine, if the weather does not permit an outdoor convocation, there will be two convocation ceremonies inside, in the Sir Arthur Currie Memorial Gymnasium. Previously the Forum had been engaged for this purpose, but it is unavailable this year.

Dr. MacKenzie
To Address
Banquet at RVC

The Women's Union annual Senior Class Dinner is scheduled to take place in the main dining room of Royal Victoria College at 7 p.m. on Tuesday, May 25, the evening before convocation.

Speaker at the banquet will be Dr. Norman A. M. MacKenzie, L.L.B., L.L.M., L.L.D., D.C.L., president of the University of British Columbia. Dr. MacKenzie has served as Associate Professor of Law at the University of Toronto and as president of the University of New Brunswick.

Tickets to the dinner — "last chance for graduating classmates to get together" — are on sale at the Union Tuckshop for 75 cents. Chairman of the event is Sue Racey, Commerce 3.

Details of several other graduating class final banquets and cocktail parties — Arts and Science, Medicine, Engineering and Commerce — are given in the "Convocation Activities" article on this page.

year; the gymnasium does not hold all the people involved, and consequently there may be a split ceremony. In this event the first will be at 9:45 a.m. and the second at 2 p.m.

The following degrees will be awarded at the afternoon convocation: Bachelor of Arts; Bachelor of Civil Law; Master of Social Work; Doctor of Dental Surgery; Doctor of Medicine; graduate diplomas in medicine and surgery; degrees in the faculty of Graduate Studies and Research. All other degrees and diplomas will be awarded at the morning convocation.

The site of convocation will be

announced over Montreal radio stations at 8, 8:30 and 9 a.m. This information may also be obtained by telephoning MARquette 9181 after 8 a.m.

Graduating students will be assembling in academic dress on the Arts Building steps at 9 a.m. If convocation is held outdoors, they will form a line in the order in which they are to receive their degrees, and, led by the platform party, will proceed down the campus in academic procession to the lower field. They will be seated in front of the public.

If convocation is held indoors, assembly is at the gymnasium at 9 a.m. and 1:15 p.m.

Placement Service Says
Good Pickings This Year

Mr. McDougall, Director of the McGill Placement Service, announced that the demand for college graduates for permanent positions is as great this year, if not greater than last year. He also stated that contrary to public opinion, the placement of Artsmen presents no problem. Out of the 83 boys graduating, only 18 have applied to the Placement Service, and they are easily placed in the financial world of banks, trust and insurance companies.

It has been found, however, that women arts graduates are far less in demand than men. Few apply to the Placement Service, and the advice given to these women is to take a business course as a means of getting into companies. The most popular occupations chosen by women are in the fields of personnel work and advertising, both of which ask for very few students from the Placement Service.

Applications were considered as early as January when 105 interviewing company visits were conducted. The greatest demand was for Engineering graduates, who, with only a few exceptions, were all placed. Science and Commerce students were next in demand, with over 80% of these graduates applying to the Placement Service.

The picture for summer employment, however, is very bleak. Jobs are extremely scarce, so much so that only one-half the number of students have been placed as compared to last year. Again, Engineers are greatest in demand, followed by applied science and commerce students.

Little office work has been available, although labour jobs, especially favourable to Engineers, and laboratory positions are awaiting students interested in

summer work. Many students have been placed in camps in the Laurentians, in hotels and in country golf clubs as waiters and waitresses.

Convocation Ball
Committee Names
List Of Patrons

The following have agreed to act as patrons of the 1954 Grand Convocation Ball to be held at McGill on May 26:

His Excellency The Right Honourable Vincent Massey, C.H., Governor-General of Canada.

The Chancellor and Mrs. B. C. Gardner.

The Principal and Vice-Chancellor and Mrs. F. Cyril James.

Dr. Muriel V. Roscoe.

Dr. and Mrs. Norman A. M. MacKenzie.

Dr. and Mrs. Jacob Viner.

Dr. J. B. Brebner.

Mr. and Mrs. Walter M. Stewart.

Mr. and Mrs. Shirley Dixon.

Mr. and Mrs. F. G. Ferrabee.

Dean and Mrs. W. C. J. Meredith.

Dean and Mrs. R. E. Jamieson.

Dean and Mrs. D. L. Thomson.

Dean and Mrs. D. P. Mowry.

Dean and Mrs. H. N. Fieldhouse.

Dean and Mrs. G. Lyman Duff.

Dean W. H. Brittain.

Miss Pauline Mowat, President, Women's Union of McGill University.

Mr. James A. Robb, President, Students' Society of McGill University.

1954 McGill Convocation Activities Under Chairmanship Of Bill Dalrymple
Feature Garden Parties, Graduating Class Dinners, Grand Convocation Ball

Starting long before the arrival of the Big Day Convocation, a students' committee, aided by several members of student, staff and faculty groups, has been hard at work to provide a sizeable list of activities and final get-togethers for the graduating class, their relatives and their friends. Convocation activities will be in progress during the week of convocation, climaxing in the ceremonies and ball on Wednesday, May 26.

Baccalaureate
Service

Dean James S. Thomson of the Faculty of Divinity will conduct the annual baccalaureate service at 11 a.m. in the Sir Arthur Currie Memorial Gymnasium, Sunday, May 23. Dr. P. Cyril James will give the baccalaureate address. Graduating students should wear academic dress. Parents and friends are welcome. Graduating women will assemble first at R.V.C. The men will assemble in the B.W.F. Room at the gymnasium.

cation, climaxing in the ceremonies and ball on Wednesday, May 26.

The first official convocation activity is the annual baccalaureate service on Sunday, May 23, at 11 a.m. in the Sir Arthur Currie Memorial Gymnasium. Dean J. S. Thomson will conduct the service and Principal F. Cyril James will give the baccalaureate address. Details of procedure are to be found below.

Next, on Monday, May 24, is the traditional Garden Party, to be held outdoors on the Stuart Forbes (Upper) Field, located north of Molson Stadium and east of Douglas Hall. An orchestra will be on hand from 8:30 p.m. to midnight. Admission is 50 cents. "The usual" liquid refreshments and chips are to be available.

In the event of rain, the party will be moved into the gymnasium.

Tuesday, May 25, is a heavy day as far as convocation activities are concerned. From 4 to 6 p.m. Dr. W. Stanford Reid, ward-

on of Douglas Hall, and Mrs. Reid, and the staffs of Douglas and Wilson Halls will receive the graduating men from the two halls and their parents and friends, in the Douglas Hall common room.

Five graduating class parties and dinners are also scheduled for Tuesday: the Women's Union Dinner in R.V.C. at 7 p.m., described elsewhere on this page, features as speakers V.B.C. president Dr. Norman MacKenzie, who is receiving an honorary degree from McGill next day.

A cocktail party for graduating students in the Faculty of Arts and Science will be held in the C.O.T.C. officers' mess at the

gymnasium from 5 to 7 p.m.

The Faculty of Medicine is holding a cocktail party from 5 to 7 p.m. at the Ritz-Carlton Hotel for its graduating class.

A similar event is scheduled for the graduating class of the School of Commerce at the Berkeley Hotel from 8 to 10:30 p.m.

The Faculty of Engineering is holding a banquet, set for the Queen's Hotel, Salons A and B, at 6:30 p.m.

The above event are under the charge of the various class presidents.

On Wednesday, May 26, Convocation Day, besides the convocation ceremonies themselves and the Convocation Ball, culminat-

ing event of the series, there is scheduled the annual Principal's Garden Party on the lower campus from 4 to 6 p.m. or in the gymnasium in event of bad weather.

Chairman of the 1954 McGill University Convocation Activities Committee is Bill Dalrymple, B. Eng. 5.

Other members of the committee are: Mary Griffin, B.F.A. 4, Printing and Publicity; Wilson Southam, B.A. 2, Convocation Ball; Emmanuel Nicolaidis, B. Eng. 5, Garden Party; Nino Qualtieri, B. D. 2, Baccalaureate Service; Terry Kern, B. Eng. 2, Ticket Sales and Reservations; Sue Racey, C. Com. 2, Women's Union.

BILL DALRYMPLE

Newman Club
Mass

The Newman Club is holding its annual Convocation Mass at 6 p.m. on Tuesday, May 25, at the Sacred Heart Convent, 3635 Atwater Ave. All Catholic graduates and all Newmanites are invited.

This year the Mass will be celebrated by Reverend Father R. Breen, assistant chaplain; the Very Reverend Canon Emmett Carter, chaplain, will address the graduates.

Million And A Half Grant From Provincial
Government Temporarily Kills McGill's Ills

Quebec's Provincial Government last week gave McGill University \$1,500,000 in grants — one \$750,000 cheque for each of the last and the current academic years.

The grants pull McGill out of a desperate economic situation; the 1951-52 budget was balanced only with the aid of Federal Government grants given in implementation of the Massey Commission Report. When Quebec removed this source of aid from the universities in this province, it resulted in a \$438,000 deficit for 1952-53. This year the deficit, predicted last fall by Principal and Vice-Chancellor F. Cyril James at "\$450,000 or more" was well over \$700,000 in the budget approved at the Tuesday, May 11, meeting of the Board of Governors.

In a statement released to the press on Thursday, Chancellor B.C. Gardner and Dr. James said: "The expenditures, in spite of rigid economy, exceed the income that was yesterday in sight by \$727,000."

"This simple statement of fact is indication of the deep feeling of

appreciation, shared by every member of McGill, which has been evoked by the action of the Prime Minister in sending to the university this morning \$1,500,000 — two \$750,000 grants.

"These generous grants from the Provincial Government, each of which is larger than the \$625,000 a year which would have been McGill's arithmetical share of the funds appropriated by the Government of Canada, amply cover the operating deficit which the university has had to incur during the past two years, and although Mr. Duplessis points out in his letter that he cannot make any definite promise regarding the 1954-55 session, the prospect of a similar grant which would enable us to balance our operating budget during the coming year has inspired every member of the university with new hope and enthusiasm."

Grants to universities were flying thick and fast around the province last week. The same day that the McGill grants were announced, Laval University in Quebec received \$1,000,000 in two

\$500,000 cheques, one for each of the last two academic years, and the next day the University of Montreal received \$1,200,000. All this is in addition to \$2,000,000 for the construction of a much-needed medical school at Laval.

In total, then, provincial grants to higher education in this province amount to \$5,700,000 in virtually one lump sum.

These are undoubtedly among the largest sets of governmental grants in Canadian educational

history, the McGill grants are the largest this university has ever received from any government in any one year for normal operating expenses. Again in the words of Chancellor Gardner and Principal James:

"They are eloquent evidence of the deep interest of Mr. Duplessis in all that concerns the educational progress of the province and of his desire to accelerate the training of men and women who in the years to come will be qualified to develop the great resources of this province wisely in the best interests of all its people."

"To this sincere expression of our warmest thanks, McGill adds the expression of its determination to contribute all that lies within its power to this technological and educational progress."

The grants are provided for under the new Quebec income tax, recently put into effect. It is expected to yield \$22,000,000 a year, a very sizable chunk of which Mr. Duplessis has allocated to universities, hospitals and other essential non-profit making institutions in the province.

The University Graduate

A student graduating from university in such a country as Canada and at such a time as the present is in a different position than that of a student graduating from university in, say, the middle ages, or in a country not closely related to the western bloc.

In times gone by students, graduates and professors held between them a virtual monopoly on learning; knowledge, for and as such, was largely in their hands. More recently people have been going to university not so much to learn as to learn to do; with the technological advance of society and the resulting establishment of our economy on the basis that we must consume and hence produce more things than we need, universities have given over large parts of themselves to the achievement of this end. "College Education" has become a standard part of our society, available to the many rather than to the few. A mark of a man's success is his ability to "send his children through college", presumably that they may be better prepared to seek financial gain in later life.

While universities have had to spread themselves beyond the pure arts and sciences in order to make themselves "valuable to the community" as judged by prevailing economic standards, they have not lost their original function.

No matter in what faculty a student enrolls, he is exposed during his college life to a certain type of intellectual environment; if it is only the welter of opposing views among his fellow students, it is still bound to make him increasingly curious about the world at large. Something about a university is not conducive to narrow thinking. The average graduate here, whether in a "pure" or "applied" field, can probably call himself educated in the proper sense of the word. At the very least, he should be provided with the impetus to further his education; a doctor or an engineer cannot be perfect if he lacks knowledge of the science on which his art rests.

There are parts of the world where higher education is far more restricted than it is in Canada, and where possession of a degree marks a considerably higher level of achievement than it does in Can-

ada. In fact, there are some countries, many of them in the middle east, where students as a group wield political power — or, more accurately, they are used as tools by nationalist rabble-rousers. It is distressing indeed to hear of students rioting in the streets for ridiculous demands — e.g., guaranteed government jobs for all high school graduates in one such country — that can only be indicative of a type of pig-headedness demonstrated at McGill by a small group of communists.

A university is intended to produce open minds; but since it also produces people skilled at a number of occupations vital to the function of society, it is convenient for people who wish to either destroy or control that society to close the minds of the students so that they will operate in a direction useful to these peoples' purposes.

One of the best ways to do this is to have pressure put on students by society. The masses are far more easily convinced than students; if the masses among which the students have to live as graduates can be made hostile to certain types of thought, then these graduates can be brought to heel.

We do not have that sort of thing here — yet. They have it in any country where communists can exploit nationalism for their own gains. Their attempt has failed miserably here; Canadians are not going to fall for any story that we are being "sold down the river" to the U.S.

Communism hasn't a hope of producing its type of conformity here. What we have to fight is the other kind — the fascist kind, represented by a nest of Republicans in the United States, by a nest of politicians here who shall remain nameless, and, we are told by recent newspaper stories, by a less publicized group in England.

This group is not as powerful as many scare-mongers make out, any more than the communists are as powerful here as the McCarthyites make out — but they, not the communists, constitute the real "danger from within." The communist danger is without.

They are trying for the student mind. Let you, the graduates, not succumb — do not let us, the undergraduates, down.

D.P.

A College In Distress

The magnitude of McGill's financial plight early last week was startling. Within the past two years the university has lost well over \$1,100,000, over \$700,000 of this being the deficit for the current fiscal year.

Students may often think that Old McGill just keeps rolling along, but a brutal look at the figures shows that Old McGill would have run up against a mighty high dam before very long. University budgeting has been careful in the extreme, but a deficit could not have been avoided if McGill was to retain its usefulness.

As we see it, if government money were not forthcoming, there could only be two ways out: one, a fee raise of about \$150, the other, an appeal to private industry. The first is not calculated to increase McGill's usefulness—it would only drive students to the Subway City. The second is preferable, but still a very painful last resort, and one that could only save us temporarily.

The Massey Commission's report on the state of arts and letters in Canada recommended federal government aid to universities as essential for betterment of same; Ottawa soon followed up the report with action and arranged a scheme which was imperfect only in that the amount of aid was based on some obscure mathematical consideration rather than on what the university needed.

With this aid McGill balanced her 1951-52 budget.

But there was one other interesting point to Ottawa's aid bill: it was left not up to the universities to accept the grants or not as they chose, but to the provincial governments to decide for the universities of each province.

This move was a bow to the voter of Quebec, without whom the Liberal party would not have such a soft time up in parliament. It left Ottawa free from the possibility of attack on grounds that it was interfering with education in Quebec.

It is a fundamental part of the National

Union platform that education is purely a matter of provincial concern; Canada's constitutional set-up holds no objection to this view.

Premier Duplessis cut off federal aid to Quebec's universities two years ago. There was quite a bit of alarm at this; but Duplessis has never been one to ignore higher education in this province. His government has a distinctly better-than-average record for financial aid to education. When he promised Quebec's universities even more money than provided by the federal grants, concern was not so much for whether he would keep his promise as for whether he could keep it.

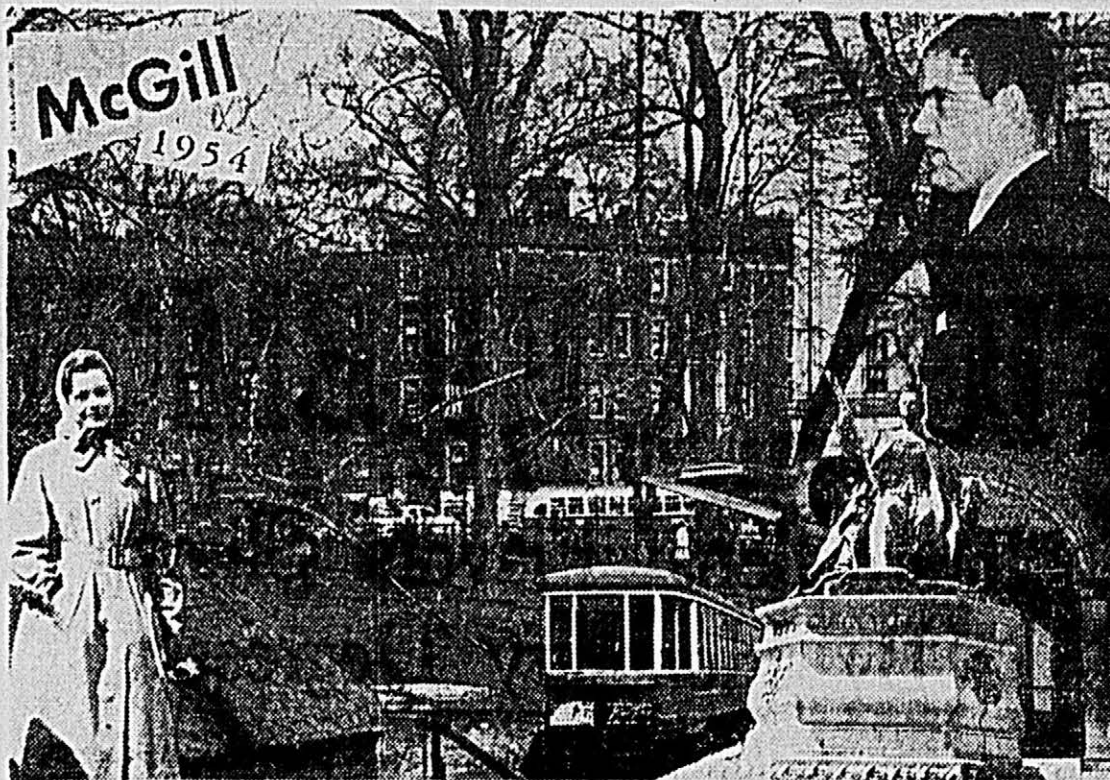

Then came the provincial income tax—\$22,000,000 a year, a considerable chunk of it for universities, hospitals, and other essential but non-profit making institutions. Hopes rose; and the hopes were not unfounded. Last week immensely generous grants to education amounting to nearly \$6,000,000 were announced. McGill benefited enormously; her deficit is covered.

We join in thanking the premier for pulling us—and our sister universities in Quebec—out of a tight spot.

We thank also the people—or rather, the taxpayers—of Quebec. Knowing that the money was going for a good purpose, they seem to have accepted the new tax with commendable quietness.

Since university grants come from the people anyway, the haggle over whether they come to us through Ottawa or through Quebec seems singularly pointless. We do not approve of the principles of provincial autonomy, but since most of the people of Quebec do, and since Premier Duplessis is evidently distributing his grants without political discrimination, we shall not allow political differences to dim our thanks. We shall continue to thank Mr. Duplessis as long as he continues to show his notable interest in the future of education in Quebec.

D.P.

THE SHUTTER CLICKS, to capture in words (below) and photo montage a fleeting glimpse of contemporary McGill in a "time capsule" article for republication thirty years hence. Against the backdrop of a pastoral campus hemmed in by a bustling metropolis, we view the unchanging and the changed. In three decades, what will remain? Will they smile at antiquated vehicles, and dated garb of professor and co-ed? For our sons and daughters there'd no doubt be many a smile in a long look at McGill of '54.

THIS IS 1954!

Story and Photos by H. Don Allen

The best of times? The worst of times? Hardly either, no, not even the most confused of times, this Year One of the Thermodynamic Age in which we write. No milestone in history, this 1954, no juncture between two eras; merely a link between a storied past and a future undetermined, a fleeting moment to be grasped, to be lived to the full.

What of life in 1954, in this troubled but emerging world, this growing vital Canada, this bustling metropolis, this smaller greener oasis that is a distinctive community all its own?

In it are the seeds of a future, countless tomorrows that, though we plan and hope, who among us can predict?

Yet who has never looked back on the past, in the light of new knowledge, and viewed a pattern unfolding, a whole panorama taking shape?

Try as he may, no historian lives in two eras. The past is over. The human mind may be kind or cruel, choosing what it would to remember; forgetting, distorting, idealizing: the "good old days" will always be in the past.

GAP IN TIME

This article is meant to bridge a gap, a gap in time, in interests, in way of life. It is written for a generation to come, in the hope and belief that they too may like to smile at the peculiarities of another time. Thirty years is not long in the history of the world, the city or the campus in which it is written. To the sociologist it represents a generation, to the university community seven comings and goings of completely new student worlds.

These are our college years, as we see them, offered to our sons and daughters, who will never fully understand them but who may gain a smile and an insight from their try.

TIME OF FLUX

Amid a staggeringly advancing technology, in an ever-evolving society, this year of and in which we write could be nothing other than a time of flux. So it is, this 1954. We look about us. We wonder. What of all this is to remain. The old horse-drawn cabs that line the Sherbrooke street fence. Will they be with us thirty years hence? The mad confusion of late afternoon traffic, pressing in all edges of the campus. Will it be changed? That beautiful backdrop of nature serene and unspoiled, Mount Royal. The quiet peace of the campus. Will men have the foresight to preserve and cherish these intangible treasures across the years?

WONDER AND HOPE

No, we can but wonder and hope. We listen to the screech of jets across the familiar skyline.

A decade past, their sound was unknown. The steady roar of power that marks the passing of a four-motored transcontinental: a promise for tomorrow, or a harbinger of doom? Such questions cannot help but be asked in a time when so very many questions are unanswered.

PROPHETS OF DOOM

Yet our prophets of doom — every age has known them — their offerings are rudely cast aside. Times are troubled, but such is history's endlessly repeated tale. This term "Cold War", so recently coined, it's but an awareness for most, unassuming but not the menace that once it was thought. The future — of course, we don't know. But the late George Orwell, he wrote of your year, painted a panorama, perhaps prophetic, but one that few indeed can accept.

NYLON, DDT

This was a time when technology was to the fore. Radio was a generation from its infancy. CBC monopolized television had past its first birthday in Montreal. Colour transmissions were being attempted to the South. Plastic, antibiotic, penicillin, DDT, nylon — these were words we'd learned to know. This was a year when the engineering schools could but struggle to keep up with industry's demands. It was a time of Alberta oil, northern Uranium, Quebec iron reserves, and of strength and vigour and undreamed-of power.

QUIET, CONSERVATIVE

On this campus of 6,000, it was a time perhaps best looked upon as conservative. It was a quiet time. There was nothing of student uprisings, trouble, discontent. Politics were somewhere in the back of the picture, for the few who chose to follow them. Football and Toronto weekends were perhaps the highlight of the Session; often more a social than an athletic success. Varsity, Queen's, Western, we recall — and a McGill without co-ed cheerleaders, hockey and basketball claimed their niche in the time-

light. The Winter Carnival, less than a decade old, was firmly established as a city-wide attraction. The Red and White Revue was in its 26th year. Hazing was outlawed: Freshmen Reception was simple and brief.

RISING PRICES

It was a time of a lull in rising prices. It was a year that witnessed the moss-green Bank of Canada dollar, still bearing the portrait of a recently deceased King, edge ahead of its American counterpart in the circles of international exchange. And it was a year that saw the annual fees for the Engineering degree mount to \$450, from a post-war \$325.

1954 found McGill a cosmopolitan University, and a many-faceted one. Every continent, every major nation, contributed of its number to her student body. Foreign students brought colour to the campus, the calypso of the West Indies, the costumes and dances of the South, Europe, and the East.

The plan in brief:

1. Provides Life Insurance Protection to age 65.
2. Returns in full all basic annual premiums paid, plus dividends, if assured survives to age 65.
3. Can be taken out on male or female lives.
4. Is available at ages 15 to 50 inclusive.
5. At age 65, the funds can be:
 - (a) taken in cash;
 - (b) used to purchase a paid-up policy for the original sum assured, without evidence of insurability (on advance election), and the balance taken in cash or as a guaranteed income;
 - (c) used to provide an annuity;
 - (d) left on deposit with a guaranteed rate of interest.

In your best interests, make inquiries immediately about this remarkable, modern Sun Life plan. For further particulars see your Sun Life agent, or get in touch with the Sun Life branch office in your own community.

SUN LIFE OF CANADA

P WOTER'S PROMPT & PUNCTUAL PRINTERY LIMITED

wishes all graduating students success in their new ventures and to those students returning next session a happy well-earned holiday.

We wish to thank you for your continuous patronage during the past 27 years.

LA. 7188

Once upon a time there was a big, big forest filled with big, big oak trees, and in one part of the forest there lived millions and millions of lovely, furry little squirrels. In another part of the forest far, far away there lived millions and millions more of lovely, furry little squirrels. All the squirrels in both parts of the forest were lovely, and all of them were furry; indeed, the only difference between them was that the squirrels in the first part of the forest gathered acorns in their right cheek while the squirrels in the second part of the forest gathered acorns in their left cheek.

The squirrels prospered and multiplied for many years, until

there came a time when the oak trees in their parts of the forest, big as they were, could not supply enough acorns to feed all the squirrels. So some of the squirrels had to move.

Both groups of squirrels sent out scouts to find a nice part of the forest to which they could move, and both scouts discovered the same nice part of the forest and reported back. Both groups of squirrels soon sent out settling parties, but the left-cheek squir-

rels sent out a smaller party than the right-cheek squirrels, and they travelled faster and got there first. The larger party of right-cheek squirrels arrived the next evening and could tell by the campfires that someone else was already there. They waited until the fires had died down, and under cover of night sneaked up the big, big oak trees and pelted the left-cheek squirrels with acorns until they surrendered.

When the right-cheek squirrels came down from the oak trees to accept the surrender, everyone was astonished to see that they had been fighting other squirrels instead of a real enemy, as they had imagined. They all had a good laugh, the left-cheek squirrels buried the dead with the right-cheek squirrels graciously singing hymns, and they all settled down to enjoy life in the nice new part of the big, big forest.

"But wait," said one of the left-cheek squirrels as he saw one of the right-cheek squirrels gathering acorns, "what are you gathering acorns in your right cheek for?"

"Why," said the right-cheek squirrel, "this is the way we have always done it. How do you do it?"

"Why," said the left-cheek squirrel, "we have always gathered acorns in our left cheek!"

Great consternation broke out. The right-cheek squirrels expressed amazement that anyone should be so strange a way, but the left-cheek squirrels fell to weeping and wailing that their intermingling with so great a number of right-cheek squirrels would cause them to lose their time-honored custom of gathering acorns in the left cheek.

"Why," said one of the right-cheek squirrels, drawing a line on the ground, "that is easily taken care of. We will sleep on this side of the line and you will sleep on that side; we will carry on free commerce in the daytime and hold

Children's stories are perhaps a little out of the Daily's usual line, but our writer was reading an article in a newspaper last week in which a fairly well-known author said that the true test of a writer's ability was "to successfully bring himself down to the level of children". Upon reading this, our writer resolved to put himself to the test. Since at the time he was leaning against a tree on the lower campus watching elderly gentlemen feeding squirrels, the subject of his story came easily to mind. Perhaps graduates would like to keep the resulting piece of writing to show their grandchildren.

our common assembly in the Grand Oak here on the border"—and he pointed to the mightiest oak tree of them all—"and this way you need have no fear."

The squirrels marvelled at this display of wisdom, and they settled down to live under the new plan, all rejoicing save a few squirrels who felt that both groups of squirrels should gather acorns in both cheeks, but they were laughed at.

For many years the squirrels prospered mightily. Each family had its own nice, warm knothole in its own nice, big oak tree; the Council of the Grand Oak took one acorn per day from each family, to be distributed to those who fell into sickness or adversity, to aid in teaching children how to gather acorns in the appropriate cheek without allowing any of the acorns to slip into the other cheek, and to provide a number of Guardian Squirrels whose function it was to prevent any squirrel from stealing any other squirrel's acorns.

But one day there arose among the left-cheek squirrels one who could chatter louder and faster than any other, and could wave his tail in the air faster and more swiftness than any other; and he became so admired by all the left-cheek squirrels that they would believe anything he chose to say. He could not think of anything, so he said the first thing that came into his head, which was: "It seemeth to me that I have observed several of our number, especially among the younger

squirrels, who alloweth their acorns to slippeth now and then into the right cheek. Methinketh this to be a ghastly and appalling thing."

The left-cheek squirrels did not understand the words that had been spoken, but they cheered wildly and agreed that it was indeed a ghastly and appalling thing, and they dubbed him the Great Leader.

Finding himself provided with one title, he promptly set about to prove himself with more, and with this end in view he announced before the populace that this ghastly and appalling thing was due to sloppy training of the young by the Council of the Grand Oak, wherewith he threw their acorns back at them.

Seeing the needy to be now in greater need than ever, he gathered them together and called them his own special Guardian Police; and, making himself their chief, he sent them about to extort acorns from the populace.

Since this was done to the accompaniment of as much noise and wild statement as possible, the populace cheered him all the more; a few squirrels, it is true, were more concerned with the words said than with the loudness of their saying, but when they were discovered boulders were rolled in front of their knotholes, so they did not count much as they were bad little squirrels. The populace applauded the Great Leader for his sublime justice and cheered him still more lest justice should descend on them, too.

As was said before, the Great Leader was especially skilled in wishing his tail through the air; so proud was he of his prowess in this art that he greatly loved to demonstrate the heavy weights that he could swing with his tail. To this end all the left-cheek squirrels attempted to hang onto his tail while he swung it; those who could hang on the longest were the most greatly rewarded.

Right-cheek squirrels regarded the Great Leader with great detestation, and since there was free commerce between both right and left-cheek squirrels, opposition to himself became painfully plain to the Great Leader and his squirrels. It is to his credit in history that he allowed his formerly weak brain to be educated by the presence of his thinking opponents; he allowed himself to learn from them the art of diplomacy. Diplomacy, children, works like this:

It so happened that a family of right-cheek squirrels owned a little shop just on the left-cheek side of the Grand Oak. The shop failed, and the poor family was in danger of starving. The Council of the Grand Oak offered them some acorns, but, as was pointed out, their acorns were thrown back at them. So the poor family starved, and starved—but just as they were about to die the Great Leader suddenly showered them with acorns!

The saved family rejoiced mightily and fell grovelling in thanks before the Great Leader, in hopes that they would be showered with still more acorns; right-cheek squirrels fell all over themselves in outdoing each other praising the benevolence of the Great Leader.

By this time all the squirrels concerned had sold themselves out, and when the Great Leader said dance, the squirrels danced, and when the Great Leader said sit, the squirrels sat, and when

the Great Leader said give me some acorns, the squirrels gave him acorns. At occasional times, and to the accompaniment of great noise heard all through squirreldom, he gave back an acorn or two to the squirrel who could praise him the nearest to as loudly as he could praise himself.

Since the Council of the Grand Oak could not chatter as loud and fast as the Great Leader, the squirrels paid no attention to it and soon gave all their acorns to the Great Leader. Meanwhile his tail had developed to such a strength that it became harder and harder to hang on while he

swung it, and soon he kept all the acorns to himself, distributing only enough so that the populace would praise him all the louder lest he should cut off the allowance entirely, and the praise of all the squirrels raised such a cloud of hot vapor as covered all of the big, big forest and enveloped all squirreldom, and on the crest of which sat the Great Leader. Since the squirrels only got one acorn at a time, they did not gather acorns in either cheek but merely ate them as fast as they were able, so that soon the original cause of the trouble was forgotten.

The time came when the Great Leader died, and the squirrels got their acorns back, so they are happy now—but, children, the moral of this story is not that the squirrels are happy, but that they now gather their acorns in both cheeks.

Graduates' Society Invites New Membership from Class of '54

By H. DON ALLEN

"You who are graduating will and should take pride in being known as a McGill man or woman." Graduates' Society officials reaffirmed this belief this month in welcoming the Class of '54 to graduates' ranks and in extending an invitation to graduating students in all faculties and schools to join the world-wide McGill alumni organization at reduced rates during the months ahead.

Officials stressed that there exists "a need and a place" for younger graduates in any of the Society's fifty-odd branches throughout Canada, North America and the world.

Reduced membership rates, available immediately, will be \$2 for the remainder of 1954 and \$3 for the 1955 calendar year. Membership will entitle the graduate to full participation in activities of the Graduates' Society branch in his community, regular subscription to THE MCGILL NEWS, Graduates' quarterly, and full rights of Society membership.

GROUP CENTURY OLD
Now century-old, the Graduates' Society was founded in the 1850's, in the words of its constitution, "to afford its members the means by united efforts to promote more effectively the in-

terests of McGill University and to bind the members more closely to one another and to the University." It numbers among its ranks 8,700 of 24,000 known living McGill graduates and former students.

Branch meetings, class reunions, and newsletter and magazine services have become the Society's principal and traditional means of keeping graduates and former students "in touch" with each other and with McGill.

MEET QUARTERLY
Branch meetings, "essentially social gatherings, so planned as to be of interest to graduates of all ages and all walks of life", are held quarterly at most branches, but may vary considerably as to scope and form.

Meetings may feature McGill guest speakers or movies on the University. The Principal and Graduates' Society officials frequently visit distant branches when travelling. McGill football movies have proven popular. The Montreal Branch holds golf tournaments. The MacDonald College Branch stages an annual sugar-off party at McGill's Morgan Arboretum, inviting all Montreal area graduates and their families.

REUNIONS HIGHLIGHTED
Reunions mark milestones in any graduate's life; bring former students back to familiar campus surroundings for fifth, tenth, and subsequent anniversaries of graduation. Many reunions are staged on the weekend of football "home" games. The key unit of reunion organization is the "class" and groups such as "Science '04", "Medicine '23" and "Law '35" are kept "in touch" by newsletters and MCGILL NEWS personal columns and reassemble at five-year intervals for reunion festivities. Professional faculties often choose to plan reunions to coincide with major conferences and conventions.

Reunions are organized by elected class officers, in cooperation with the University street Executive Offices of the Society. RECORD OF SERVICE
McGill's Graduates' Society boasts a lengthy record of service to the University and the campus community. Annual "Alma Mater Fund" donations of more than 8,000 graduates are

looked upon as a "living endowment". Fund organizers point out that a single ten-dollar gift through the Society is equivalent to over \$250 in endowment. All fund receipts, above operating expenses, are turned over to the University, for use as McGill administrators see fit.

The Sir Arthur Currie Memorial Gymnasium-Armoury is one memorial to graduate giving. The Swimming pool annex is the outcome of the Society's most recent special world-wide fund-raising campaign.

CAMPUS INTERESTS
Coordinated through an Undergraduates' Interest Committee, graduates' have directed special efforts through the years to assistance at the student level. Legal aid, technical advice and other help is available through established channels. Publicity and support for Winter Carnivals, Athletics Nights, and like student undertaking has been regularly given. The Society's Alumnae group, for women graduates, sets up a Rooms Registry each Aut-

umn. The Placement Service is a cooperative effort between the Society and the University.

CAN JOIN RANKS
Graduates' Society ranks are open to all McGill graduates, regardless of date of graduation, and to former students who spent at least one full year at the University. Recognized privileges available include use of the Library, the Placement Service, and certain athletic facilities. Membership can be arranged through the Society's Executive Offices, 3574 University street, or the elected officers of classes of '54, names of whom can be found in the current Old McGill.

Those joining will be provided with information concerning organizational plans for the near future at the branch of their choice.

Society officials urge all graduates, however, to keep the Executive Offices informed as to changes of address through the years, so that records of living former McGills can be kept intact.

1081 Students Gain Their Degrees This Year

M. S. Silivsky, British Association Medal; Jan Dlouhy, British Association Medal; George James, British Association Medal.

Mrs. E. G. Roskies, Economics and Political Science; D. G. Johns, Biology; Peter Slater, Philosophy.

Ronald Schreiber, 2nd in Architecture; Jocelyn Carey, Physical and Occupational Therapy; Glean Lyman, Music.

Evelyn Petruska, Taps in Arts General Course; Evelyn Rutherford, Physical Education; Claire Millinchamp, Home Economics.

The names of the graduates in the different faculties of the university were released by the Senate Wednesday. Prizewinners, who are shown in accompanying pictures, were also announced at that time. Following is the complete list of degree (not diploma) winners:

Faculty of Arts and Science Bachelor of Arts

Ashenmiller, Harold William, Distinction in the General Course; Ayers, Wallace Morgan. Bacal, Howard Athol; Ballon, Basil Frank; Bercovitch, David; Berger, Harvey David; Bernot, Joseph; Bishop, Trevor Howard; Blakely, John Arden; Bloomstone, Bernard; Bond, Elton Howard, First Class Honours in French and German, Governor General's Gold Medal for Modern Languages; Brilley, James Donald; Brown, Irwin. Cape, Edmund; Cleghorn, John Maumoch; Curtis, Robert St. Aldhelm. Dade, Timothy; Davidson, John Wilbur, Second Class Honours in History; Davies, Alan Trewartha, First Class Honours in History, Second Class Honours in English; The Mary Keenan Scholarship in English; Dickinson, Gordon Thomas; Domville, James. French, Guy Parsons, Second Class Honours in History; Friedman, Robert Harry. Gallay, Rollin Lawrence; Garber, Seymour Stanley; Gelber, Nahum; Gillman, Neil Gardner, First Class Honours in French and Philosophy; Goffman, Irving, Second Class Honours in Economics and Political Science; Gombay, Andre, First Class Honours in Philosophy; Prince of Wales Gold Medal in Philosophy; Gotthelf, Fred Monroe, Second Class Honours in Economics and Political Science; Gould, David Harding; Greenberg, Benjamin Joseph; Griffiths, Anthony Fren; Grivakes, Tass George; Gross, Gerald Gene. Hadjipateras, Nicolas; Ham, Arthur Keith; Hanson, Derek Austin; Heney, Edward Sprinkett, Second Class Honours in English. Kahn, Asher; Kasirer, Paul, Second Class Honours in English and History; Kotler, Julian. Laffoley, John Richard; Levitt, Michael Norman; Lindsay, Alan Crawford; Lovink, Johan Anton; Lyeck, Kenneth Martin. Mackeen, John Stewart, Second Class Honours in English and History; Marshall, Kenneth George, Distinction in the General Course; McDonald, Brian; Mentha, Guy Gilbert, First Class Honours in French, Henry Chapman Prize in Modern Languages; Miller, Malcolm; Moldell, Bruce Eric, Second Class Honours in Economics and Political Science; Morris, Saul; Morrison, Kenneth Donald, Second Class Honours in History. Nicholson, Alan Montgomery. Oliphant, John Lawrence. Palamedes, George, Second Class Honours in Economics and Political Science; Porteous, John Timothy, Second Class Honours in English and Philosophy; Powter, Charles Barrett; Pytel, Andrew Henry. Rotstein, Morris. Savage, Donald Cockfield, Second Class Honours in History, Lieutenant Governor's Silver Medal for History; Schnalberg, Hyman Laddie; Schneller, John Michael; Silver, Isidore; Slater, Christopher Peter, First Class Honours in Philosophy, Prince of Wales Gold Medal in Philosophy; Solomon, Hyman; Souaid, Pierre Ramsay; Stein, Allan Manuel; Stirling, Donald Victor; Sutherland, Ronald. Tolchinsky, Sol. Van Allen, Traer; Vandenberg, Richard, Second Class Honours in Economics and Political Science. Wang, Erik; Weiner, Gerald; Weingarten, Solomon; Whaley, Robert Lee; Wild, Donald Herbert. Bachelor of Arts Women Alexander, Mary Jane; Alexander, Elizabeth Frances; Anderson, Elizabeth; Anderson, Susan Louise. Bailey, Mary Beth; Barac, Helena Nadine; Beaudoin, Carolee Mae; Bloomstone, Shirley, First Class Honours in Sociology; Butterbaugh, Dona Grace. Chen, Inez Patricia, Distinction in the General Course; Child, Wendy Alice; Clark, Margery Allison, Second Class Honours in English and History; Cousineau, Marie Denise; Creighton, Rhoda Elaine; Cuevas, Aura Ann, Second Class Honours in English; Cullen, Elena Eva. Darling, Joan Agnes; Dear, Eleanor Ruth; Drayton, Dorothy Gwen, First Class Honours in English; Lora Forsyth Prize in English; Driscoll, Judith Sheila; Drysdale, Elizabeth Ann; Dabow, Ruth. Evans, Merran Gwynne; Fajner, Gisela; Flanagan, Clara Elizabeth; Fleischman, Rona Adele, Great Distinction in the General Course, Lieutenant Governor's Silver Medal for Great Distinction in the General Course; Florakas, Sophie; Frank, Eleanor; Fraser, Barbara Gwendolyn; Fraser, Joan Col; Freeborough, Dinah Miriam. Gallay, Tilly, Second Class Honours in English; Gertel, Ruth Rachel; Goodman, Joan Esther; Govier, Virginia Helen; Grant, Raymond; Greenblatt, Joyce Barbara; Greenblatt, Judith Ruth; Gyorgy, Ann Mary, First Class Honours in French. Haller, Vivian; Halsted, Elinor, Second Class Honours in Sociology; Hansard, Philippa; Hearn, Catherine Mary; Herzberg, Mary Obelyn; Hey, Sheila Ellen; Hoopes, Ann Griffith; Horovitch, Vita. Imbleau, Cherie Marie; Iversen, Joyce Janet. Jacobs, Barbara Pauline; Joly, Madeleine. Keeb, Diana. Lamont, Helen Lorna; Lamprecht, Eleanor Maria; Land, Enid; Irma; Lederman, Gertrude; Ledoux, Mary Therese; Leipold, Johanna Mary; Lester, Roslyn Joy; Lyman, Corinne. MacDonald, Marianne, First Class Honours in English, Shakespeare Gold Medal in English, Peterson Memorial Prize in Literature; Mackey, Barbara Isabel; McCall, Mary Isabel; McEchran, Sheila; McNabb, Shirley Anne; Merck, Judith Friedrike, Distinction in the General Course; Miller, Cella Bluma; Moore, Jane Elizabeth; Mooyboer, Johanne Elaine, Second Class Honours in French; Murray, Mary Athol. Nemser, Ruby Diane, First Class Honours in German, Swiss Government Prize in German; Newcomb, Mary Elizabeth; Nollie, Helen. O'Connell, Wellner, O'Connor, Ann Rosemary; Orling, Julie; Ouloussian, Elizabeth. Palmer, Cecily Eleanor; Pattiell, Judith; Parsons, Margaret; Patton, Virginia Therese; Peet, Elly; Philip, Margaret Ann; Picard, Charlotte, Second Class Honours in History; Pinker, Rose Wiesenfeld, Distinction in the General Course. Roskies, Ethel Goldstein, First Class Honours in Economics and Political Science, Allen Oliver Gold Medal in Economics and Political Science, Allen Oliver Fellowship in Economics and Political Science; Rozovsky, Betty Quint; Ryan, Mary Shellagh; Ryley, Nancy St. Clair. Sabn, Dorothy Ann; Schaffer, Roslyn; Shotwell, Helen Frances; Sidorov, Nancy, Great Distinction in the General Course; Steiner, Josephine, Second Class Honours in Sociology; Stern, Deena Marion; Szuskowska, Janina. Takefman, Proma; Thomas, Gerda Joan; Torrance, Pamela Lyon. Usheroff, Zeldia Joan. Van Buskirk, Bette Lou; Veith, Judith Margaret; Vines, Norma Phyllis; Vosburgh, Carol Wentworth. B.A., Second Class Honours; Seal, Donald William, B.A., Second Class Honours; Selick, Abel David; Shaw, William Patrick, B.A.; Smyth, Jerome Christopher, B.A., First Class Honours, Elizabeth Torrance Gold Medal for highest standing in final year, Junior Bar Association

Victor William; Butzer, Karl Wilhelm; Second Class Honours in Mathematics. Carlin, Joseph Thomas; Second Class Honours in Geology; Clark, Samuel Smith; Coddington, Walter R. L.; Cox, John Bruce. Devos, Claude Desre F.; Diggin, William Lawrence; Dorr, Humphrey Patrick, Distinction in the General Course; Dreyfus, Henry Joseph; Dubow, Harry Irving, Second Class Honours in Biochemistry; Duffield, James Collin. Emo, Ralph Gordon, Distinction in the General Course; Engelberg, Willie. Givner, Morry Lincoln; Godel, Morris; Gonsalves, Francis, Ivor; Hansard, Hugh Hazen, Distinction in the General Course; Henderson, John Frederick, Second Class Honours in Chemistry. Isbister, Earl Glen. Jacobson, Myron Julius; Jensen, Walter Merton Jr.; Jessurun-Cardozo, Samuel; Johns, David Garrett, First Class Honours in Biochemistry, Major Hiram Mills Gold Medal in Biology. Kochen, Simon Bernard, First Class Honours in Mathematics; Kyvia, Tadeusz Frank, Second Class Honours in Mathematics and Physics. Lewis, Irwin, Second Class Honours in Physiology; Lundell, Sidney Arvid, Second Class Honours in Chemistry. MacCordick, Henry John; MacKenzie, James Robertson; Marcovitz, Bernard; Matzko, Peter; McCully, James Joseph; McGerrigle, John Innes, Second Class Honours in Geology; Melkie, Brian Keith, First Class Honours in Geology, The Logan Gold Medal in Geology; Melnikoff, Robert Michael; Mlynaryk, Peter, Great Distinction in the General Course; Morgan, David Rees, Second Class Honours in Geology; Morgenstern, Gert F., First Class Honours in Psychology, Province of Quebec Psychological Association Prize; Morrison, G. Rolfe, Second Class Honours in Psychology. Ottolenghi, Paul, Second Class Honours in Biochemistry. Papadopoulos, Anastassios; Paterson, Alan Lorne; Perrin, Wilfred Harper; Powell, Lloyd Gladstone. Richter, Maxwell, Second Class Honours in Biochemistry; Rochefort, Joseph Guy, Second Class Honours in Biochemistry; Rosenthal, Perry, Second Class Honours in Physiology; Ryan, Donald William. Saunders, William Arthur, Second Class Honours in Biochemistry; Saval, Emilio; Schaffer, Robert; Schiff, Louis; Segal, Benny, Second Class Honours in Mathematics and Physics; Smith, Raymond Ives; Sofer, Seymour Joseph. Tarasofsky, Edward; Thomson, John Arthur. Ugoji, Samuel Niemchukwu, Second Class Honours in Biochemistry; Usher, David Richard, Second Class Honours in Biochemistry. Westbury, Ronald Arthur, Second Class Honours in Chemistry; Wilchesky, Isaac Leonard; Wright, Earle Stanley, Great Distinction in the General Course. Yablou, Isidore.

Bachelor of Science Women Abbott Smith, Harriet B.; Acott, Bernice Grace. Baines, Joan Doreen; Barry, Barbara Mary; Berger, Irene; Brooks, Sarah Elaine, First Class Honours in Chemistry, Anne Molson Prize in Chemistry; Buchak, Luba Nadia. Carter, Joanne Postle; Cerny, Maria Elizabeth; Cohen, Rhoda, Second Class Honours in Psychology; Cullen, Marianne S. Elderkin, Anna Lea. Fisher, Elaine Frances; Francis, Shirley Veronica. Gilmour, Meredith Mackenzie; Gombay, Judith; Goodwin, Marilyn Fisher. Halpern, Ethel; Hatfield, Jeannette, Distinction in the General Course. James, Sandra Ellen. Koss, Barbara Malce; Krueck, Elizabeth Maria, Second Class Honours in Chemistry. Leblid, Iroldin, Second Class Honours in Bacteriology and Immunology. Mitchell, Joan Louise, Second Class Honours in Chemistry; Mowat, Margaret Pauline. Nakashima, Rutko, Second Class Honours in Biochemistry. Peio, Margaret, Second Class Honours in Bacteriology and Immunology; Petrushka, Evelyn, Great Distinction in the General Course, Governor General's Silver Medal for Great Distinction in the General Course. Rattray, Margaret. Smith, Jacqueline; Sybelski, Stella, Second Class Honours in Biochemistry; Synowicki, Sabina Tekla. Taurins, Ezina, Second Class Honours in Biochemistry; Twyman, Margaret Maud, First Class Honours in Bacteriology and Immunology. Wadey, Bernice Claire; Webb, Helen Barbara, Distinction in the General Course; Webb, Elizabeth Macaw, Distinction in the General Course. Young, Marilyn Diane.

Bachelor of Fine Arts Women Boek, Carol Margaret. Fellegi, Catherine Erika. Griffin, Mary Eliza. Hecht, Ruth Eleonora. Paisley, Donna Elizabeth. Stott, Anne Mary. Wickenden, Harriet French.

Bachelor of Commerce Men Abdalla, William. Birch, John Worth, First Class Honours in Economics Chancellors (Beatty) Gold Medal in Economics; Disaillon, Gilles Henri; Bradley, Robert Ellison. Coviensky, Seymour. Diamond, Stanley Mark; Dickie, Adam. Errington, Philip James. Fitzsimmons, Murray C.; Forbes, Alberto Malcolm; Frank, Sidney Irwin. Gallay, Ronald Edward, Distinction in the General Course, Lieutenant Governor's Silver Medal in Commerce; F. W. Sharpe Prize in Accountancy and Mathematics, Clarkson Gordon Prize for Best Student in Accounting, Garceau, Jean; Gayle, Esau Edward; Ghanous, Fred; Glassford, Peter Balfour; Godber, Horton James; Greenfield, Teddy T.; Guertle, Richard; Gunstone, Lewis Charles. Hall, Norman William; Hollinger, Arnold Leonard; Holterman, Don Robert, Second Class Honours in Economics, Hyde, William Farrell. Jacob, David Michael, First Class Honours in Economics; Johnson, John Peter. Keenan, Patrick John; Kon, Charles; Korman, David Sheldon. Levene, Kenneth Norton, Second Class Honours in Economics. MacKintosh, Kenneth Ian; MacLennan, Taylor; Madigan, Brendan Francis; Maier, Richard Miller; Malmo, David Beyerley; Malinsky, Jacob Joseph; Manning, John Calvin; Mather, Derek Haliday, Second Class Honours in Economics; McGill, John William; McGowan, James Joseph; McGuigan, Brian John; Mendel, Joseph; Moffitt, Robert James; Morton, Lionel Charles P.; Must, Olaf Ilmar. Nettleton, George Harvey. Parker, Roy Walter; Pearson, John Bruce; Petty, George Shaw; Promislow, Barry Joseph, Second Class Honours in Economics. Pytko, Thaddeus. Rabinovitch, Isaac; Robinson, Reginald A.; Rothman, Bernard. Samotis, Morris; Shiller, Gerald Joseph; Shulman, Marilyn Oscar; Smith, Gerald Allan; Souaid, Marcel; Speirs, Derek James, Second Class Honours in Economics. Spowart, Melville Albert; Steinberg, H. Arnold; Stevens, George Denis. Tomlinson, David Holand. White, Frank David; Williams, Robert Allen; Wilnot, Frederick Graham; Woodworth, Warren P. Yelnikoff, Stanley, First Class Honours in Economics.

Bachelor of Commerce Women De Takacs, Margaret, Distinction in the General Course, Lieutenant Governor's Bronze Medal in Commerce; Dubrule, Barbara Jayne. McAllister, Katherine L. Schwartzben, Sonja Ann; Stanley, Barbara Marian.

Faculty of Medicine M.D., C.M. Adams, J. Robert, B.A. Boyle, Edward J. B.A.; Breslin, Derezowski, Hector V. B.A.; Bordon, J. A.B., B.Sc.; Brooks, Vivian E. B.Sc.; Brownell, Harold H. B.Sc.; Burgess, Peter W.; Butt, Robert M. B.A. Carpenter, Albert, A. B.S.; Caterill, T. Brian, B.Sc., 3rd Place High Aggregate Standing in the Final Year (equal with John D. Price and Douglas L. Thomson); Chm, Wilfred C. B.Sc.; Collins, David L. B.A.; Costello, Stephen D. B.Sc.; Couture, Walter H. B.A.; Craymer, William J. B.Sc. Da Sylva, Norman P. B.Sc.; Dujon, Anstley U. B.Sc. Faculty of Engineering
Bachelor of Architecture
Archambault, Maurice E. Bolduc, Paul Emile Claude; Bourke, Richard David. Honours in Architecture; The Hugh McLennan Memorial Travelling Scholarship; The Royal Architectural Institute of Canada Medal;

The Class of '04

may not look too spry today, but they learned one thing, that the class of '54 might well remember... spend less than you receive, and bank the balance. It will pay rich dividends in the future.

THE ROYAL BANK OF CANADA

Dr N.A.M. MacKenzie
LL.B., LL.M., D.C.L.
SPEAKER:

Women's Graduation Dinner
RVC MAY 25 7 P.M.

Larry Sullivan Appointed Head Football Coach

Kosakowski May Don Red, White In '54

By Irwin Lewis

McGill's senior Redmen, of the Intercollegiate Football League, will have a new head coach this year in the person of Larry Sullivan, appointed to take over the reins from Vic Obeck. Obeck will now be able to devote all his efforts, as Director of Athletics, to the ever expanding sports program here at the University.

Sullivan comes to the Redmen with a very high rating among football experts, one of them being Frank Leahy, former head coach at Notre Dame.

Currently, the Redmen's new

(Photo By Rochester Studios, Hamilton)

Vic Obeck's successor will be Larry Sullivan, recently appointed head coach of the senior Redmen. Sullivan comes to McGill from Cathedral High School, Hamilton, and is highly rated in grid circles.

Meet McGill's New Grid Mentor "Greatest Surprise of Entire Life"

By Larry Sullivan

HAMILTON, Ont. May 17 — "We are starting out to accept a great challenge and it is only fitting that together we discuss our plans, our hopes, our fears, our aims and our objectives, for together, we should be able to do a representative job.

As yet we have made no promises, but we will do so now. You can depend upon this.

We cannot win all the games but with the continued support of the faculty and student body we will never be humiliated. We will be in there doing our level best to the end.

You will always be proud of your Alma Mater, win, lose or draw, of this we can assure you."

Approximately six weeks ago, we received the greatest surprise of our entire life. For it was then that the authorities of McGill University saw fit to appoint us head football coach. My vocabulary lacks words to describe my feeling of joy and sincere acceptance of the position.

McGill leaves an indelible mark on its students and associates. It left it upon Vic Obeck just as much as upon any old grad who has worn the colors of the Redmen. We hope fervently and more than you know, that we can be as worthy as Vic Obeck, not only on the gridiron but in private life. We will try hard to fill the position he has vacated and we fully realize that it will be no easy task. We know he has done a grand job here and we hope that we can continue where he left off. Please do not expect too much.

MEN FIND A FORTUNE IN Comfort!

Clarks DESERT CASUALS

A man's ideal shoe for his leisure hours his long week-ends. A refined reproduction of the original Desert Boot so well known for comfort by the men who fought in North Africa. The casual styling is smart. The leather is in chamois-soft finish. Chupplee in smooth bamboo colored calf, soft... light... tough. Soles and heels of plantation (pure rubber) crepe. Four models Desert Boot Desert Saddle Desert Moroccan The Chupplee. Average prices \$11.95 to \$12.95.

At better stores everywhere. Please write for name of nearest dealer.

THE FAMOUS "DESERT BOOT"

CLASSY formal wear

In addition to this football experience, Sullivan has some boxing know-how as well, being a great friend of Heavyweight champion Rocky Marciano. A boxing position may be in the offing for Larry, along with his grid duties, but this is not definite at present.

McGill's new head football coach comes to this University not only with a great rating, but also with the complete backing of the Athletic powers that decided on the numerous applications for such a position. This attitude is neatly summed up by Athletics Director Vic Obeck. "Naturally I still have a great love for football", Obeck said, "but due to the tremendous growth of the Athletics Department, it is impossible to continue with the head football coaching position. In relinquishing such a position on likes to feel that his successor is 100% the right man. Sullivan in my opinion fits this to a 'T', and we couldn't have made a better choice".

During the last weekend in June, Sullivan will continue the tradition of football clinics, for all local high school and QRFU coaches, established by Obeck and run for the past six or seven years. This June date is tentative. Further information may be obtained by contacting the Athletics Office.

Coach Sullivan will by no means have an easy time of it with the 1954 edition of the Redmen. Such stalwarts as Wilmet, Shaw, Biewald, McGill and Klein will not be with us and their absence will be felt.

(Continued on Page 7)

Summer Membership

McIntyre Tennis Courts
Summer membership in the McIntyre Tennis Courts, on McIntyre street will be valid from May 15 to Sept. 15. Memberships are available at the ticket office in the gym.

Undergraduates and Graduate students pay \$6 plus their Athletics Coupons. Graduate students will be charged \$9 without their Athletics Books.

Membership is limited, the registration deadline being June 1st.

Memorial Pool
Summer membership is available to Undergraduates, Graduate Students, Staff members and hospital personnel.

The fee is \$5 along with the members' Athletics Book. Memberships are available at the gym ticket office.

The pool will be open from 12 to 8, Monday through Friday, while on Saturdays the hours will be from 9 to 5.

What's news at Inco?

This shoveller needs no rest

Blast after blast drives a passage through the solid rock deep down in Inco's Levack mine. After the blasting, this mechanical loader moves in and picks up the rock broken by the explosives. It operates without interruption—often not stopping even while ore cars move into position for loading.

This powerful equipment is an example of the way Inco endeavours to take the backache out of mining.

"The Romance of Nickel", a 72-page book, fully illustrated, will be sent free on request to anyone interested.

Changes Revealed By Athletics Department

It has been announced by the Athletics Department that Mike Yuhasz, head of the freshmen required sports program, wrestling coach and line coach here at McGill, will be leaving to take up a somewhat similar position at the University of Western Ontario.

In addition to these activities, over the past three years, Mike was concerned with Gymnastics to a certain extent and lectured in the School of Physical Education, his specialty being tests and measurements, physical fitness tests

and similar material.

At Western, Yuhasz will follow a somewhat similar course, acting as a line coach and participating in activities similar to those carried on here at McGill. However, at Western, he will head a newly constructed research lab in Tests and Measurements, and this latter feature was the main factor in causing the switch. In addition he makes his home in Windsor, while his wife comes from London Ontario.

Mike is, at present, continuing

In Doctorate work in his Tests and Measurements field.

Mr. Floyd M. Van Wagner, Director of Recreational Athletics

ASHTON . . . Leaving

and Track, Field and Harrier coach for a number of years has announced his retirement. Mr. Van Wagner, however, who lives near Shawbridge will still retain his active interest in the McGill Outing Club.

Norm Ashton, Waterpolo and swimming coach here at McGill will take up a new position with the MAAA, but will come up to the University to coach both teams.

Finally, Al Molloy Jr., coach of the Badminton, Squash and Tennis teams will be leaving but the Molloy name will remain at McGill, with Al Molloy Sr., taking over from Junior.

Replacements in the Athletics Department, for those members leaving with the exception of Al Molloy Sr., have not yet been announced.

The Daily wishes all those leaving the best of luck in their respective fields of endeavour.

Track and Field

A number of McGill students have joined the Montreal Track and Field Club and are training regularly twice a week, on Mondays and Wednesdays.

Anyone planning on staying in town this summer and harboring thoughts of running for McGill in the fall are strongly advised to join this club.

Further information can be obtained by dialing MA: 9181, local 431.

Football Seating

In previous years, students have been seated in two widely separated sections at Molson Stadium, section "2" and "R". This year a slightly different set-up will be tried, the students being seated in sections "R" and "S", the two sections consisting of some 2,000 seats.

Remember the old slogan, "United we stand, divided we fall". These seats, of course, are in addition to the bleachers in the front of the stands.

Larry Sullivan, recently appointed head football coach of McGill's senior Redmen will certainly have a tough time filling the positions left vacant by such stalwarts as Len Shaw, Hal Dlewald, and George Klein. An ex-Redman, Bob MacLellan may return to the field and this should certainly brighten the local grid picture.

Intramural Department Has Successful Year

The past year has been a most successful one from the standpoint of participation and interest shown by the students in all the activities conducted by the Intramural department. A total of twenty-one activities were organized and over 1500 different students participated in some phase of the program.

During 1953-54, competition was conducted in individual and team type sports. Tennis, Golf, Touch Football, Track and Field, Harrier, Woodsmanship and Squash held the spotlight during the Fall season. Basketball, Floor Hockey, Volleyball, Ice Hockey, Swimming, Wrestling, Riffery, Handball, Table Tennis, Badminton, Indoor Track and Gymnastics were the activities conducted during the Winter and Spring season.

Two tournaments in Badminton, Squash and Table Tennis were held during the Winter season. These three individual sports are extremely popular with a great number of students.

Highlights
The Extramural Festival this year was somewhat of a departure from previous years. On March 3rd, Loyola College, Sir George Williams College, Macdonald College and McGill University conducted round robin competitions in Basketball, Volleyball, and Floor Hockey at the Sir Arthur Currie Memorial Gymnasium. Foul shooting with two representatives from each college was conducted at half time during the preliminary rounds. Consolation and Championship finals closed the evening's competitive program. The McGill Intramural teams were victorious in all four events.

This type of an Extramural festival proved very successful especially from the standpoint of creating friendly relationships between the students from the four colleges, and all representatives expressed a sincere hope that this type of Extramural festival would become an annual event.

During intermission of the Festival, Intramural trophies and championship keys were presented.

Tickets Sales

Students will not receive any price reduction at the McGill vs UBC, Paraplegic Bowl Game scheduled for Molson Stadium, Saturday Sept. 18. Reserved seats range \$1.50 to \$3.00, while general admission will be \$1.

As far as the four home Inter-collegiate games are concerned, students will be admitted provided they have their Athletics Coupon Book. This will necessitate a prior payment of \$1.50 at the Athletics office, at the time of registration.

Season tickets are available as well. With the Athletics Book, the price is \$5.00, while the general public pays \$9.00. Anyone not possessing such an Athletics Book will be charged the general admission of \$1.

Larry Sullivan . . .

(Continued from Page 6)
1954 Redmen Prospects
However the situation has its brighter aspects as well.

Reliable sources have it that Joe Kosakowski, star quarterback, with last year's edition of the McMaster Marauders, will sport the Red and White colours in 1954. Kosakowski has been planning to come to McGill, and, as he is a very good friend of Sullivan's, the prospect now looks very bright indeed. In addition, it is believed that some as yet unnamed players from Ontario will be coming our way.

Bob MacLellan, former McGill Grid and hockey star is hoping to enter Medicine here at McGill in the fall, after studying at Ottawa University. If MacLellan is accepted he will don the Red and White once again.

From last year's Intermediate Football squad, such fellows as Adrian, Perry, Schwartz, Westaway, Mutsch and others will be trying for a senior berth.

All told it is difficult to predict the nature of the 1954 edition of the senior Redmen but there is every indication of an interesting grid season in store for McGill fans.

Proceeds Of UBC-McGill Contest Headed For CPA

The second annual McGill vs UBC Paraplegic Bowl Game, for the Winston Churchill Trophy, will be held at Molson Stadium, Saturday Sept. 18. British Columbia's Thunderbirds will be coming East this year with some top-flight football material.

In addition to participating in this Paraplegic Game, the proceeds of which go to charity, the Thunderbirds plan to challenge the 1954 champion of the Inter-collegiate football league, to play a post season tilt with them. UBC made a good showing in their own league last season and such a

Athletic scholarships are offered at the University of British Columbia, and, as a result we can be sure that the Thunderbirds will be coming East this year with some top-flight football material.

In addition to participating in this Paraplegic Game, the proceeds of which go to charity, the Thunderbirds plan to challenge the 1954 champion of the Inter-collegiate football league, to play a post season tilt with them. UBC made a good showing in their own league last season and such a

game would clearly indicate the calibre of both loops with respect to one another.

Finally, the game highlight will be the presentation, to the victorious squad, of the magnificent Winston Churchill Trophy, which has been recently completed.

Provincial Swimming Championships

The Provincial Swimming Championships will be held at the Memorial Pool on June 12th. Coach Norm Ashton will have a few Red and White entries in this meet, and, reports have it that the McGill mentor will enter a strong relay team.

(Continued from Page 2)

In increasing numbers were making their mark. As ever, their stronghold was Arts, and more

Graduates...

(Continued from page 5)

Bartoschuk, Alexander Karl, B.Sc., Sir George Williams, M.Sc., McGill, Psychology; Bertalanffy, Felix D., M.Sc., McGill, Anatomy; Black, Philip T., B.Sc., M.Sc., McGill, Geology.

Coles, Clifford Harry, B.A., M.A., Ohio State, Botany; Dunford, Hugh Brian, B.Sc., M.Sc., Alberta, Chemistry, in absentia.

Faulkner, Peter, B.Sc., London, Biochemistry; Fox, Geoffrey Eric Norman, B.A., M.A., British Columbia, Mathematics.

Gendron, Lucien Jean, B.A., M.Sc.A., Montreal, Chemistry.

Hilborn, John Wells, B.A., Toronto, M.Sc., McGill, Physics.

LeRoux, Edgar Joseph, B.A., Carleton, M.Sc., McGill, Entomology; Levy, Samuel Wolfe, B.Sc., McGill, M.Sc., Saskatchewan, Physiology; Li, Choh-luh, B.Sc., Nanking, M.D., Shanghai, M.Sc., McGill, Neurology.

MacLennan, Donald Fraser, B.Sc., M.Sc. Dalhousie, Chemistry, in absentia; Marchessault, Robert, H., B.Sc. Montreal, Chemistry; Melzack, Ronald, B.Sc., M.Sc., McGill, Psychology; Mercer, John Hainsworth, B.A. Cantab., Geography, in absentia; Milner, Peter Marshall, B.Sc., Eng. Leeds, M.Sc. McGill, Psychology; Morton, Ernest Rodney, B.Eng., M.Eng., McGill, Chemistry; Mungall, Allan George, B.A.Sc., M.A. Sc., British Columbia, Physics.

O'Donnell, Vincent Joseph, B.Sc. McGill, Biochemistry; Orvig, Sverre, B.Sc., Oslo, M.Sc., McGill, Geography.

Poole, John Burton, B.A. British Columbia, M.Sc. McGill, Parasitology; Potter, Calvin Cuthbert, B.Sc. Sir George Williams, M. Com. McGill, Economics; Povlatis, Bronys, Dipl. Agr. Lithuania, M.Sc. McGill, Genetics.

Sampson, Hubert, B.A., M.A. British Columbia, Psychology; Schaus, Orland, B.Eng., M.Eng. McGill, Chemistry; Schucher, Reuben, B.Sc. McGill, M.Sc. Saskatchewan, Biochemistry; Stevenson, Ira Morley, B.Sc., M.Sc. McGill, Geology.

Wallen, Victor Reid, B.Sc. Agr., M.Sc. McGill, Plant Pathology; Wallerstein, Harvey, B.Sc. McGill, Psychology in absentia.

Faculty of Divinity

Bachelor of Divinity

Finley, Russell Hilbert, B.A.; Fleming, Richard Gordon, B.Sc., Second Class Honours in Systematic Theology, W.N. Birks Prize.

Murray, Kenneth John Wallace, B.A.

Pinkney, Morley Edward, B.A. Ramsey, Thomas Alfred, B.A. Sc.

Zuk, Michael, B.A.

Faculty of Music

Bachelor of Music

Lyman, Glau Florence, Lieutenant Governor's Silver Medal.

truth that fiction might be found in the decades-old assertion that their fondest hopes for College centered about a combination and B.A., and MRS.

In a year in which the hemline had discretely edged back to 11 inches from the floor, woman students had indeed found their niche.

CHANGING SCENE

These were times of the changing and the unchanged. The Arts Building, the Museum, stately, unaltered, The Physical Sciences Centre, newly built amid post-war expansion; the Cyclotron, Eaton Electronics, Tyndale Hall, strikingly fresh in sharp clean stone.

The stretching lawns of the Lower Campus, a park-like island amid the bustle of city life. How much, and what, of this will remain?

LIVING COMMUNITY

The campus community, it will live on. Never again is it likely to know the intimacy of the past. Our time was one of assembly hall lectures, public address systems, and students who were statistics on course forms. The personal element in introductory courses was all but lost. Replacing it was high efficiency, and knowledge and education for the thousands.

These were times of unending research, little-heralded discoveries, the building blocks of new tomorrows.

CHALLENGES MET

These, too, were years of accomplishment, and the word "pioneer" was far from outdated. Great Everest was scaled. Man broke the challenging barriers of sound in flight and, home humbly, the four-minute mile.

Canada gained her first subway, little comfort to students who journeyed daily on antiquated trams (fare: 10 cents) or slow, crowded Sherbrooke street buses. The great St. Lawrence Seaway project was approved, and amid a mild tremor of unemployment, the nation looked ahead to a bright tomorrow.

BUT ONE CHAPTER

No, this was not the time of celluloid collars and stereoscopes; we thought we had the best of clothing (see cut) and flocked to tri-dimensional colour films. We'd all but forgotten the age of the nickel 'phone call, or of the universal five-cent chocolate bar. Cigarettes were 35 cents or more, coffee was adime a McGill dance cost 75 cents per person, and five months' summer work at pay that startled father, enabled most to afford it.

No, not the best of times, not the worst of times, this period in the early 1950's in and of which we write. Important to us, yes, but through the tomorrows but one more faded page and chapter in the story of Canada and McGill.

Christian Mission Planned

A University Christian Mission is being planned for McGill next January. Organized by a committee of students representing all the Protestant groups on the campus, it will have as Chief Missioner, Canon Charles Raven of England.

The purpose of the Mission is to present the challenge of the Christian faith to the student body as a whole. One of four such missions planned for next year, the McGill Mission will be following the pattern of a series of highly successful missions undertaken at Canadian universities in recent years.

Canon Raven, the Chief Missioner, is a distinguished churchman, educator, scientist and writer. A former Vice-Chancellor of Cambridge University and Master of Trinity College there, he is also chaplain to Her Majesty the Queen. A recognized author

ity on natural science, two years ago he addressed a gathering of outstanding scientists and medical workers here at McGill. A brilliant speaker and writer, he has dealt most effectively with the problems of science and religion.
